

Connected Resources for Oil and Gas facilities can mean the difference between Life and Death in the Workplace.

Your employees inside these critical facilities need to be safe and secure while they are on the property. In addition to safety, lowering costs and being more efficient also is important. Here are some of the features and benefits you can realize with a VOS CoRe solution:

Unauthorized Zone Entry Alert

Safety managers get immediate notification.

Extended Working Hours Alert

Safety managers get immediate notification.

Shock Detection

In case of fall or major body shock.

Emergency Evacuation

Receive alert buzzer and track attendance at designated location(s).

Mobile Edge brings you a T-Mobile certified cellular-enabled solution with real-time insights and AI optimization for actionable intelligence to connect workers everywhere in the workplace with T-Mobile IoT service.

FEATURES AND BENEFITS

- **Person Down/SOS Alert Notification**
- **Global Resource Management**
- **Risk mitigation and safety compliance**
- **Site Sensors for location-based activity mapping**
- **Automate payroll Clock In/Out on and/or off site**
- **Worker, equipment, fleet, and tool/asset tracking**
- **Quantified key performance analytics using AI optimized algorithms reporting real-time insights**
- **Coordinated Enterprise Analytics with a centralized view of all resources for coordinated responses**
