

Connected Resources for your business can be the difference between Life and Death in the Workplace

CoRe is connected resource management using real-time analytics to reduce project costs, improve worker productivity, and boost jobsite safety/security.

Shock Detection

In case of fall or major body shock.

Resource and Contact Tracing

Blue-tooth for proximity tracing.

Unauthorized Zone Entry Alert

Safety managers get immediate notification.

Cellular Enabled

Plug-and-play without complicated gateways or mesh networks.

Extended Working Hours Alert

Safety managers get notified real-time.

Emergency Evacuation

Receive alert buzzer and track attendance at designated location(s).

Mobile Edge brings you a T-Mobile certified cellular-enabled solution with real-time insights and AI optimization for actionable intelligence to connect workers everywhere in the workplace with T-Mobile IoT service.

FEATURES AND BENEFITS INCLUDE:

- Automate area resource activity associated with workers, equipment, fleet, tool/asset tracking, and more.
- Simplify and automate payroll Clock In/Out
- Man Down/SOS Alert Notification
- Site Sensors and geofencing for location-based mapping for all resources for integrated reporting
- Quantified key performance analytics using AI optimized algorithms reporting real-time insights
- Management portal with custom reports

Meet the world's smartest industrial safety device:
